## 'ETHEL LENEVE IS INNOCENT'

So Declares Inspector Dew After Long Talk With the Girl

CRIPPEN IS QUITE GAY

Does Not Appear to Be At All Worried Over His Position

WOMEN SEND FLOWERS

Suspect's Father Is Heart Broken—Half-Sister of Dead Wife As Witness

Quebec, Que., Aug. 2.—"Ethel Claire Leneve is innocent of any share in the murder of Belle Elmore," declares Inspector Dew.

"She told me her entire story and it is sufficient to clear her. Detectives are working hard in London to prove her statements. The girl has broken down, but has tried to shield Crippen. The latter is just the other way. He is chatty and apparently happy.

Mrs. Fred Bennett is to be the principal witness against Crippen. She was a close friend of Belle Elmore. Women are sending flowers already to the prisoner in his cell.

The hearing will be resumed tomorrow in Judge Pennington's court.

Father's Heart Broken

Los Angeles, Cal., Aug. 2.—Bowed down with years and broken by the ordeal of his son's arrest on the suspicion of having killed his wife, Mr. Crippen, father of Dr. Crippen, presents today the most pathetic figure of the case that has so aroused the interest of two continents.

"I have not the money to go to Hawley, but if I had I would gladly go and see whether conviction could to him," said the suspect's father. "I have not received any word from him and do not expect to. It is hard to have to suffer, but I don't think it will last long. I am not long for this world now and since this trial has come to me I have not had a single day of good health. They cannot prove anything on Hawley. They cannot prove that Belle Elmore is dead. Why should I believe him guilty? I know that he would not do such a thing. I feel as if I would like to get away alone and die. I did my best to educate Hawley and his son. I did the best I could and now in my old age I am alone and overwhelmed by this disgrace."

May Act As Witness

Newport, R. I., Aug. 2.—Mrs. Robert Mills of this city, a half sister of the late wife of Dr. Hawley H. Crippen, has been asked by the Scotland Yard officials to go to England for the trial of Dr. Crippen. She has not been informed what they want of her but she is prepared to leave soon. She states that she will probably go to England by the way of Quebec, according to Dr. Crippen and Miss Leneve. Mrs. Mills seemed happy after the news of the arrest of the couple.

Detective Sails

London, Aug. 2.—Detective Mitchell sailed on Thursday for Canada with the necessary papers for the extradition of Dr. Crippen.

OLIVER IN VANCOUVER

Vancouver, Aug. 2.—Hon. Frank Oliver arrived from Dawson and left for the east. He denies that he has any intention of resigning the portfolio of the Interior.

\$500,000 CONTRACT

London, Aug. 2.—Libby, McNeill & Libby have closed a five million dollar contract with British army for canned meat. British officers will supervise the packing in Chicago.

FIFTEEN DROWNED

Munich, Bavaria, Aug. 2.—Nine young men and six girls were drowned in the lake of Traun by the capsizing of a barge yesterday. Four of their companions were saved by fishermen.

## ARE POLICE WRONG HERE

Rearrested a Miner After Coroner's Jury Exonerated Him

WAS ACCUSED OF MURDER

Fellow Miner Hit By Car, Killed; Said That This Man Was Responsible

PETITION THE PREMIER

Taber Miners Call It An Outrage—Attorney General to Investigate

Premier Sifton has received a petition from the members of Miners' Lodge No. 1059, at Taber, protesting against the action now being taken against Frank Deaux, a union miner of that place who was exonerated by a coroner's jury of complicity in the death of a fellow worker some time ago. Immediately after the jury acquitted him his freedom he was rearrested by the mounted police. The miners strongly condemn the action of the police and threaten, unless some action is taken, to call a convention of the whole district to deal with the case.

Premier Sifton stated this morning in regard to the matter that it would be taken up with the attorney-general's department.

Deaux was charged with murdering another employee in a mine, by starting one of the cars which are used for carrying ore, down an incline, striking the deceased. It was shown that the starting of the car was an accident, although the mounted police claimed to have evidence to the effect that Deaux had previously threatened the other. The police also state that they believed there was hard feeling among the miners for the deceased on account of the fact that he was not a union member.

The petition that was sent in as follows:

July 26th, 1910.

To the Hon. A. L. Sifton, Premier of Alberta:

Dear Sir:

We the miners of Taber Local 1059, at a special meeting strongly entered a protest against the action now being taken against Arthur Deaux, of Frank, after being exonerated by the coroner's jury to be still kept in prison, and refused bail, this action on the part of the police is one, which we, as law abiding citizens of Taber, in the Province of Alberta, strongly condemn and we can assure you that if action is not taken by the Provincial Government of Alberta, we, the miners of Taber Local 1059 United Mine Workers of America, will ask the district to call a special convention to take action in this case, so that we can take a united action in a body.

Signed:

Abraham Bateman, President.

William Cook, Vice-President.

Edward Browne, Financial Secy.

Settlers From Michigan Come Despite The Grand Trunk Strike

The excursion of settlers from Alpena, Michigan, which was to have been held under the auspices of the provincial public department has been called off on account of the Grand Trunk Railway strike in the east. However, ninety-two of the proposed party crossed from Alpena to Windsor, Ont., and are now on their way west by the C. P. R. The majority of the number are booked for the Edmonton district. The remainder of the party will come to the Canadian west in small parties. There is considerable capital among the settlers and they are French by nationality. Alpena being a French settlement.

If you have been troubled with shoe troubles try a pair of Slaters' at Kelly & Moore's.

No matter what you want at a drug store you can save money by buying it here. Edmonton Drug Co.

CHANGE IN OATH

BRING JOY TO MANY

Earl Crewe Says Twelve Million Catholics Will Be Much Happier

(Canadian Associated Press)

London, Aug. 2.—Yesterday in moving the second reading of the bill to amend the accession declaration which passed without a division, Earl Crewe referred to the fact that Earl Grey, who long before becoming Governor-General took an interest in this question, said that 2,500,000 Catholics in Canada and a million in Australia were awaiting their lordships' decision. The new declaration would gladden the hearts of twelve millions fellow subjects of the Empire.

Much Talk, Little Result

The Morning Post criticized the Blue Book on the correspondence relating to the imperial conference. It declares that it will prove somewhat gloomy reading for Imperialists in all parts of the world, as the impression given is of ten resolutions for one result.

SEVEN AEROPLANES WRECKED

Storm Blows Down Circus Tent in Which They Were Stayed

St. Louis, Aug. 2.—Seven aeroplanes valued at \$25,000 were wrecked in a tornado on the Aero Club of St. Louis aviation field at Washington Park, Ill., tonight. The planes, including the Farman biplane of C. W. Curtiss, were blown in three or four circles when the wind came the big pole snapped and the wreckage fell on the planes. There is not enough left of any one to repair except the motors, which are believed to be intact.

The storm came just after Howard W. Mill and Hilbert Beachey had made flights in the former's biplane. It was the only machine on the field saved, it being housed in a shed. Besides Curtiss's the planes of the following are in the wreckage: J. N. Spafford; two Charles Kuban, C. F. Harris, H. A. Robinson and C. F. Zehler.

JASPER SUBWAY PLANS HERE SOON

Mayor Lee Received Letter Giving the Information This Morning

MAY START WORK SOON

Ald. McInnis Wants to See Construction Started This Summer

That it would be wise for the city to see that the excavation work on the proposed Jasper Avenue subway is done, and the retaining walls be constructed before the autumn, in order that the street railway would suffer no inconvenience in the handling of traffic, was the suggestion made to the mayor this morning by Ald. McInnis. Mayor Lee has received a letter which contains the information that the plans for the subway may be expected here within a few days, when the city officials will be given an opportunity to criticize them.

Ald. McInnis states that if a start in the construction of the subway is delayed by the C.P.R. until the railway company also begin to lay the foundation for their station and hotel at the corner of Tenth Street and Jasper Avenue, then the street railway will be cut off altogether from the city center.

Mr. Dowler mentioned particularly a 300 acre field near Staveland, which he said, was almost as good as one could desire.

Another Man Has Now Disappeared

George Meredith Left House On Bellamy Street Two Weeks Ago

Has Not Been Seen Since

Took a Gun and Started for the Hudson's Bay Reserve

George Meredith, aged 38, a master mechanic by trade, whose home is in the Lacombe district, left the home of his friends here on Monday, 28th July, and has not been seen or heard of since. The most mysterious part of it is that he left at two o'clock, took a rifle and cartridges with him stating that he would take a walk through the Hudson Bay Reserve, and expressing his intention of coming home for supper.

Mrs. Fred Griffith, 154 Bellamy street, states that Meredith is a quiet, sober man, and has the reputation of being very industrious, so that any idea of suicide must be discarded. However, there is a possibility of an accident having occurred and the police intend to make a thorough search.

May Have Gone Home

There is very little probability of his having gone home but it is not possible to find out definitely on account of the vague idea as to the location of his home. The search is also rendered more difficult by the delay in the reporting of his disappearance.

Meredith has a wife and five children who reside with him on his

## HARVESTING OF FALL WHEAT IN THIS DISTRICT STARTS

In the Rabbit Hill district near Strathcona there are several farmers who have started to "gather in the golden grain" and the weather for so doing promises to be of the best.

Harvesting barley

Lewis Miller who has a farm of 75 acres in the Rabbit Hill district, was the pioneer and yesterday was the break of day he got his binders to work and started on his barley. Today he is continuing with it and tomorrow he will begin on his fall wheat.

James Groves, who has about 130 acres under crop is another of the pioneers and started on his wheat this morning.

One year ago today there was only

one field of winter wheat ready for cutting and that was on the farm of Mr. Reynolds in the lower Ilas district, and this year there are numbers of farmers in the neighborhood of Mr. Miller's farm who will start their binders to work this week.

What the Harvest Earlier

The Strathcona Board of Trade states that the crops in the Strathcona district this year are some of the finest ever seen and it is likely that a record will be established.

The variety of wheat known as Closson's Red Chaff was the kind that was harvested earlier than the general harvest last year. It is a distinct variety which usually is ready for cutting some days earlier than other kinds. This year the whole harvest will be some days earlier than last year.

So Says Lieut.-Colonel Andrews

Thompson of Ottawa, a Visitor Here

MONEY FROM PROVINCE

Suggests City Get Appropriation From Provincial Govt. to Build Riverside Drive

Lieutenant Colonel Andrews T. Thompson of Ottawa arrived in Edmonton this morning and is a guest at the Alberta Hotel. Col. Thompson is taking a trip through the West for the first time and is very favorably impressed with both Edmonton and Strathcona.

To a representative of The Capital this morning he said what he noticed most was the beautiful situation of Edmonton on the banks of the river.

"I don't like those dusty prairie towns," said Col. Thompson. "They are too bare and flat."

Remarks on Lack of Driveway

He then went on to remark that it was a pity that there was no driveway along the bank of the river where people could go in the cool of the evening. "Why don't you get an appropriation from the provincial government for the beautifying of the town like we did down in Ottawa?" he asked. "We got it because we were the capital of the Dominion and Edmonton ought to get it because it is the capital of the province. It has a right to it."

Col. Thompson is a barrister in Ottawa doing almost entirely parliamentary work, and is also in command of the Fifth Infantry, the Niagara regiment. He is only able to stay a short while in town, in fact he leaves this afternoon at 3 o'clock for the coast. This morning he spent with Mr. J. M. Douglas, M.P., who is an old friend of his and who showed him all round the city.

Mixed Farming Pays

Speaking on agricultural subjects Mr. Thompson said: "You know, we think the West is a grand country, but we still think a lot of our own East, and we have an advantage over you in one way—that is, that we do mixed farming and if the crops fail why we have our live stock to fall back on; whereas, in the West, if the crops fail it is a total loss to the farmer. Down in the Niagara district the fruit lands are worth \$2,000 an acre and a man can easily live on ten acres, so the British Columbia lands are not the only valuable ones in the country."

Edmonton is a marvellous city for its size. Why? There are some buildings in the town that look as if they ought to belong to a city twice the size."

Lieut.-Col. Thompson will visit Vancouver, Victoria and the B. C. fruit lands before returning East.

## FAR MORE GRAIN IN SOUTH THAN HAS BEEN EXPECTED

(Special to the Capital)

Calgary, August 2.—"There will be a great deal more grain raised this year in Southern Alberta than most people anticipate," said Mr. Fred Dowler of the Alberta-Pacific Elevator Co.

"We get reports from our agents at the different points where the elevators are kept open and while there is no doubt that the crop as a whole is considerable of a failure, there will be all the grain required for feed and seed and a certain amount left over for shipment."

"A feature of the situation is that what grain there is, this year is of a good quality."

Will Grade Up High

In proof of this statement, Mr. Dowler showed a sample of grain that the elevator company has received from Cardston, where harvesting operations are going on, which was an exceedingly fine sample of winter wheat and would easily grade No. 1.

More Seed in North

There will be, however, in the north country, a much greater area seeded this fall than in any former years. There has been plenty of rain and the summer fallowed land and the land broken early this year is in excellent condition for seeding.

The Alberta-Pacific Elevator Company shipped last week a carload of seed wheat to a man at Carstairs who intended to sow the whole carload.

In regard to the crops in central and northern Alberta, Mr. Dowler said that the growing reports have not been exaggerated and if the crops ripen safely there will be a large harvest in nearly every district north of Calgary.

Description of Man

The missing man is described as being five feet nine inches in height and 170 pounds in weight. His hair is grey and he wears a close-clipped mustache. He wore a light grey suit when last seen.

STRIKE OVER

Montreal, Que., Aug. 2.—The announcement is made this morning of an agreement in the Grand Trunk strike. The men are to go back to work in forty-eight hours.

HOPE OF WORLD'S PEACE

The Times referring to the proposed celebration of a century of peace, says that Laurier dwelt eloquently upon the peaceful relations of the United States and Britain in a speech to the American immigrants in Winnipeg. He did not overstate the case. The British Empire and republic could count between them 1,300,000,000 of the European races, and in their desire for it, lies the world's best hope of peace.

ISSUE REGINA BONDS

London, Aug. 2.—The Bank of Montreal issues tomorrow the debentures of the city of Regina, \$4,600,000, at a 4 per cent. interest probably the last of the season.

Our Summer Suits except any we have ever been able to show at the price. Kelly & Moore.

Have you read "The Rosary"? Little has this book on sale.

## DEMOCRATIC NOMINEE EMBARKED FOR ALASKA

And Now His Political Friends Don't Know What To Do

Minneapolis, Minn., August 2.—Lind, Democratic nominee for Governor, is at sea on the Humboldt, en route for Alaska, and his political friends are also at sea. When embarking, Lind declared he did not receive the telegraphic notice sent of his nomination. Secretary of State Schanall said he would accept certificates and filing, but would not place the name on the official ballots until he heard from Lind.

"BEAUTIFY EDMONTON"

So Says Lieut.-Colonel Andrews Thompson of Ottawa, a Visitor Here

MONEY FROM PROVINCE

Suggests City Get Appropriation From Provincial Govt. to Build Riverside Drive

## OSCAR KING HUNG TODAY

Paid Extreme Penalty of the Law at Half-Past Seven This Morning

HIS LIPS TIGHTLY CLOSED

Did Not Make Any Confession at All Before His Death

DEATH INSTANTANEOUS

Two Ministers Were With Him All Night, Preparing Him for Death

Very white and trembling, but with his lips tightly closed, William Oscar King this morning was placed on the trap door of the gallows and at 7:30 the lever was pulled and he paid the extreme penalty of the law for the crime of killing his parolee, Hindahl, while they were on the trail together on a dark winter's night.

All last night the Rev. H. L. Shultz of Edmonton and the Rev. Fohlgel of Branderberg were with the condemned man, preparing him to meet his Maker and at 6 o'clock this morning he took the sacrament.

Taken From His Cell

At 7:15 the Sheriff and the jailer and a guard of the Mounted Police opened the cell door and the death procession proceeded to the gallows.

The gallows itself is just in a small house set apart from the rest of the buildings. A room absolutely bare but for the large beams running across the ceiling and the trapdoor in the floor. From the beam the rope was dangling to the floor.

Did Not Confess

When the procession arrived at the gallows King was given fifteen minutes to confess anything that he might wish to confess before he might have to confess, but he kept his lips tightly closed and said nothing.

At 7:20 the hangman with the black mask concealing his face, approached the prisoner, bound his hands behind his back and tied a handkerchief over his eyes. Stepping back and over towards the lever stalk works the trap door he waited with his hand on it while the ministers said the last prayer.

Death Instantaneous

As the prayer ended the lever was pulled, the trap doors opened suddenly. There was the "swish" of a falling body—followed by the sharp "twang" of the ropes as it jerked tight—and King had paid the penalty for his crime.

Death was instantaneous, the fall breaking the neck. Almost immediately the body was given down and the body of the man who had been King had paid the penalty for his crime.

Just after the rope had been placed around his neck, King suddenly asked if he could speak to his spiritual adviser for a minute. Permission was given, and he and the minister talked together in low tones for a minute or two. Then King walked back and took up his former position.

JACKSON HANBY HAS BEST GARDEN

Results of the Lawn and Garden Competition Announced

The judges appointed by the Edmonton Horticultural Society to inspect lawns and gardens and flowers in this city have submitted the following report and have made the undermentioned awards:

"One work of judging and making awards was rendered most difficult by the all-round excellence in several cases less than a whole point separates the successful competitor from the unsuccessful competitor. In the total number of gardens and lawns examined by your judges was 50.

TUESDAY, AUG. 2, 1910.

For a second time within a year of  
so the possibilities of "wireless" have  
been demonstrated in a very striking  
way. The first occasion was when the  
passengers and crew of the steam-  
er Republic were rescued through a  
hurry call for aid sent by the Mar-  
coni operator. But for his presence  
on board, there is little question that  
all would have perished. Now, in the  
case of Dr. Crippen, Scotland Yard  
has been able to keep in touch with  
the movements of the suspect and his  
companion all the way across the  
Atlantic and to arrange for their be-  
ing handed over to the authorities  
just as soon as Canadian soil was  
touched. A new and thrilling chapter  
in the history of crime has been  
enacted.

A man with a face like Dr. Crippen  
made a serious mistake in taking up  
the occupation of a murderer. Unless  
the newspapers do his physiognomy  
an injustice, it is difficult to under-  
stand how he could have hoped to  
elude the detectives for long.

"He will come back" was the head-  
line over the Calgary Alberta's leader  
on Saturday. But to the surprise of  
all who went on to read the article,  
it referred to Mr. W. J. Bryan and not  
to the Alberta's whilom colleague,  
Mr. E. H. Riley. Its forecast with  
regard to the former member for  
Oleichen is swatted with interest.

The death of John G. Carlisle, sec-  
retary of the treasury in Cleveland's  
last administration, removes a man  
of genuine distinction. He occupied  
the post referred to at a critical jun-  
cture in the nation's financial history.  
His term of office covered the years  
in which the 16 to 1 rate was gath-  
ering head. It completely captured  
the Democratic party in 1896 and  
made Mr. Bryan the candidate for  
president. No man offered a steeper  
or more intelligent resistance to the  
movement, than did Mr. Carlisle and  
the fact that he was at the Treasury  
when in those days had much to do  
with the keeping of the country free  
from the effects of the insanity which  
was sweeping over it. At this dis-  
tance of time, those who surrounded  
Mr. Cleveland at that time show up  
as men of very large calibre, whose  
places are assured in the permanent  
honour-roll of the nation. One of  
them, though he occupied one of the  
minor posts for but a short time, we  
shall probably have a good deal of in  
the next few years. Mr. Judson Har-  
mon, who was attorney general, is  
now Governor of Ohio and is the  
most likely Democratic candidate for  
the presidency in 1912. He carried  
what is usually a strongly Republican  
state in 1908, and, if re-elected this  
fall, it is almost certain to be nomi-  
nated. New divisions in the ranks of  
his opponents that are cropping up  
every week improve his chances ma-  
terially.

## What Others Say

## FAT MEN AT A DISCOUNT.

London Daily Chronicle.  
A recent issue of the Journal of the  
International Association of Hotel-  
keepers, published in Geneva contain-  
ed this advertisement:

"WANTED—For the Society Zep-  
elin, at Friedrichshafen, a capable  
waiter, smart at serving, to take  
charge of the restaurant in a dirigible  
balloon. He must not weigh more  
than 140 pounds."

THE RESPONSIBILITIES OF  
OFFICE

Lloydminster Times.  
"Uncasy lies the head that wears  
a crown," quoth the immortal Wil-  
liam, and it would appear that, even  
the pound keeper of Lloydminster,  
Alta., is not immune from the pen-  
sion that sticks to the account of a

branch of the legal system of Alberta  
known as the Pound Ordinance hav-  
ing recently been vouchsafed to our  
old friend Uncle Clarkson, he one day  
last week proceeded to put the law  
in motion and had serious designs  
upon certain horses then found dis-  
porting themselves upon the public  
highway, and having effected his fell  
purpose straightaway got him to his  
lair with his booty. The owner of the  
horses, however, had yidgins of trouble  
ahead, so he set after Uncle the  
Pound Keeper with larit in hand and  
with a grim look of determination on  
his countenance. Then followed a  
race for life between Uncle's mount  
and the cow puncher's steed, and the  
descent of the farrier, and that only  
kept Uncle from emulating the ex-  
ample of John Gilpin in this famous  
equestrian stunt, else had we heard  
of the arrival of the valiant horseman  
in the environs of Aberfeldy or Mar-  
shall.

NEW SANITARY  
REGULATIONS

Dr. Whitelaw, Medical Officer of  
Health, has sent out the following in-  
formation for the public:

An amendment to by-law 195 has re-  
cently been passed by the council to  
bring the attention of the public to  
is directed as follows:

"The Municipal Council of the City  
of Edmonton, duly assembled causes  
as follows:

"1.—Section 1 of By-law 195 of the  
City of Edmonton as amended by  
Section 1 (c) of By-law 195 of the  
City of Edmonton is hereby repealed and  
the following substituted therefor:

"2. Every dwelling house shall be  
provided with either a water closet  
properly connected with the municipal  
system of waterworks and sewerage  
or if it be so situated that it cannot  
be connected with said system on  
any abutting street or lane, it shall  
be provided with a suitable privy,  
situated near the lane in the rear  
of the premises."

(1). From and after the date of  
the passing of this by-law no privy  
shall be constructed so as to have  
what are known as sanitary pails, and  
all privies now having or using such  
receptacles shall on or before the 1st  
of October, 1910, be reconstructed  
so as to conform to the provisions  
hereof.

(2). Every privy shall consist of a  
pit in the ground at least 4 feet in  
depth, into which shall be placed a  
closet which shall rest on the ground  
at least six inches beyond the edge  
of the pit. Said closet shall be so  
constructed and provided with close  
fitting doors and windows as to ex-  
clude flies; the earth on the outside  
thereof shall be banked up so as to  
prevent the entrance of water, and the  
holes in the seats shall be provided  
with hinged covers.

(3). No person shall hereafter  
sink or cause to be sunk any well  
in any part of the city within which  
water from the city waterworks can  
be obtained by connection therewith  
or delivery therefrom; (1) every well  
now in use shall, if upon examina-  
tion by the Medical Health Officer,  
be found dangerous to health, be  
at once filled in and the use thereof  
abandoned; (2) No person shall here-  
sink or cause to be sunk any well  
within the limits of the city without  
first receiving a permit from the  
Medical Health Officer, who shall,  
before issuing such permit, see that  
the proposed well is so situated and  
constructed that the water therein  
shall not be liable to become con-  
taminated.

Done and passed in Council this  
26th day of July, 1910. Signed, Robert  
Lee, mayor; signed F. M. C. Cross-  
kill, sec. treasurer."

In explanation of the change which  
has been made as above I may say  
that for two years I have given the  
question of the sanitary pail as used  
in our city careful consideration and  
have found the system anything but  
satisfactory. It is not only very ex-  
pensive in operation, costing the De-  
partment from \$8,000 to \$10,000 per  
year, but it is very unsanitary and  
offensive, and there is strong reason  
to suspect that a great many of the  
typhoid fever cases among our citi-  
zens in the months of September and  
October each year are due to the in-  
fective material carried by the house-  
fly from these so-called sanitary pails  
and deposited on food supplied in  
houses, stores, etc. During these  
months more than half of our typhoid  
fever cases have occurred, and it is  
during these months that the house-  
fly is most active and most lia-  
ble to gain access to our homes in  
large numbers. It is impossible to  
keep closets in a sufficient good state  
of repair to exclude flies so long as  
these scavengers, and in many cases  
the badly constructed closets, and at  
the back get broken off, or are not  
sufficiently tight enough.

Many of the closets under the new  
regulations will be discontinued and  
replaced by proper water and sewer  
services long before they will require  
them.

Kirkpatrick and Pate,  
116 McDougall Avenue REAL ESTATE AND INSURANCE Phone 1729

## Choice Property for Sale

This property is in the choicest residential portion of the  
city, situate on Fifth Street between Victoria and McKay  
Aves. in the midst of the finest homes in Edmonton.  
North fourth feet of Lot 81, Block 5, H.B.R.  
Most liberal terms to suit purchaser.

forced. When discontinued the pit  
will be filled in with earth and the  
closet removed. It will be necessary  
for the health department to keep  
close supervision over these out-  
houses, and to see that necessary dis-  
infectants are used from time to time.  
What ever objections may be made  
to the pit system, it must be remem-  
bered that no system of out-door  
privy can possibly be ideal, and the  
Board of Health which has lately  
obtained from many other cities in-  
formation on the subject has unani-  
mously decided that the pit system  
under proper supervision is the least  
objectionable of all, and the one best  
adapted for our climate and condi-  
tions.

Regarding the clause affecting wells  
it has been found that many of the  
old wells and springs in the city have  
been shown, by examination, to be  
contaminated and many cases of ty-  
phoid have originated among those  
using the water therefrom. Sooner  
or later every well in the thickly  
populated districts of the city will  
become dangerous to those who de-  
pend on them for their supply of  
drinking water unless special pre-  
cautions be taken in guarding them from  
surface contamination. Hence the  
necessity for some supervision by the  
health department over all existing  
wells or any others which may here-  
after be sunk.

## POLICE COURT YESTERDAY

"The dog has a peculiar fondness  
for children's flesh," said Mrs. Sarah  
Frazer, who charged Ole Ooley, of  
Fraser's Plats, with keeping a vicious  
dog, "and has bitten several children.  
The day before yesterday the vicious  
brute attacked my boy."

"The dog is innocent," shouted the  
defendant.

"The dog is not being tried," said  
the magistrate, causing a laugh. It  
was decided that the poundkeeper  
should put an end to the dog.

Mrs. Maurice Denis was convicted  
of committing assault and battery on  
Charles Heurley and was fined \$5  
and costs. The countercharge against  
Denis of using threatening language  
was withdrawn.

The cases against Parvie Griseyuk  
for non-payment of wages and against  
Geo. Hay for cruelty to animals were  
disposed of, the former charge being  
withdrawn while the latter case was  
dismissed.

## LITTLE GIRL HURT

Horses Ran Away And She Was  
Thrown Out of Wagon

As the result of a runaway accident  
yesterday, Flora Molson, a fifteen-  
year-old girl, received some ugly  
bruises on the head and a bad shak-  
ing.

The team which a man named Thomas  
Hare, was driving accompanied by

his granddaughter, Flora, became un-  
manageable at the passing of an auto-  
mobile and started down Fraser ave-  
nue dragging the wagon loaded with  
boxes and furniture at a terrific speed.  
Hare was pitched out of the wagon  
horses, but saved himself by catching  
the pole and clinging to it.

The little girl was more unfortu-  
nate, being thrown off the load, twelve  
feet high, her face striking the pave-  
ment. She was picked up uncon-  
scious and taken into the nearest  
house where medical aid was procured.  
At present she is doing well.

## SONS OF SCOTLAND.

Black Watch Camp No. 202, Sons  
of Scotland Benevolent Association,  
will hold a social evening at Hous-  
ton's Hall, Jasper Avenue, in the form  
of a smoking concert on Wednesday  
evening at 8.30 o'clock, to which a  
cordial invitation is extended to all  
Scotsmen and those of Scotch de-  
scent.

Chief William B. Quinn will occupy  
the chair, Organizer Angus, Mr. F. S.  
Allan will give a short address on  
the objects, progress, development,  
and advantages of the association.  
The committee have arranged for a  
most interesting program of Scotch  
songs, stories and readings, also the  
sword dance by Bro. P. K. McGregor,  
Rob Roy Camp, Belleville, Ont., High-  
land fling by Angus M. F. S. Allan,  
reel and reel O'ulloch Bros Nicoll  
Rabston, McGregor, and Allan, bag-  
pipe selection by Pipe Major Henry  
Laird. Dinna forget tae come, and  
bring yer freens along wae ye.

## LEVELLING A MOUNTAIN

Five and a Half Tons of Powder in  
One Blast

Sixty thousand tons of stone were  
blasted with five and a half tons of  
gunpowder near the village of Llanrhap  
Hill, which lies among the stone  
quarries in Derbyshire.

The village itself was entirely de-  
sered before the operations began,  
and the inhabitants and a large num-  
ber of visitors sought the shelter of a  
neighbouring mountain in order to see  
the spectacle.

An eye-witness gives the following  
account:

"All eyes were turned towards the  
northern corner of the mountain of  
limestone. In the heart of this in a  
carefully prepared chamber, was live  
and a half tons of gunpowder, con-  
nected with a five minute fuse.  
The ringing of a bell gave the  
signal, and then the entire side of  
the mountain rose bodily and toppled  
over into the bottom of the quarry,  
while an immense cloud of smoke rose  
in the air."

## CURE CENSURES PEEKABOO.

Geneva—Cure Villiger, the head of  
the village church of Sarmentori, in

the Canton of Argovie, was so shock-  
ed by the younger women of his con-  
gregation appearing in church in  
white openwork blouses, owing to  
the very hot weather which prevailed  
that he changed the subject of the  
sermon and spoke on the vanities  
of the world, and openwork blouses  
in particular.

At the end of the sermon the cure  
stated that in future no woman wear-  
ing openwork blouses would be al-  
lowed to enter the church, and that he  
had given orders to that effect. The  
men in the village support the cure,  
while the women are very indignant.

Young girls ought to make the most  
of their birthdays, for in after years  
they cease to have them.

If a fireman antagonizes you tell  
him to go to blazes.

In the blood.  
John D. Rockefeller says he would  
like to see all religious dea min-  
istrants united. Uncle John doesn't  
seem to be able to get away from the  
combine idea.

THEODORE REVILLON, President.  
E. H. COPE, Secretary.

P. O. DWYER, Vice-President.

## THE JOURNAL'S METHOD

On Monday morning, The Daily Capital sent a private wire to Manager Deacon White at Brandon, over the C.P.R., which read as follows:

"Who is Owens? Did Dell pitch a no-hit game at Moose Jaw? How are the Eskimos performing?" (Signed) DAILY CAPITAL.

Imagine our amazement this morning on looking over the page in the Morning Journal devoted to baseball scores, to find the following dispatch, enclosed in a box and with "Special to the Journal" proudly emblazoned above it:

DEACON WANTS A PITCHER

Brandon, Aug. 1.—Special to Journal.—Owens is a bush-pitcher from Minot, N. D., a tried-out. Didn't keep him. Dell pitched a one-hit game against Moose Jaw. Hickey pitched a grand game tonight against Heinrich, easily shutting out Brandon. If I can pick up another first class twirler will do it, but they are hard to get now. Lussi is playing a sensational game in centre field.

DEACON.

As this was a reply, word for word, to The Capital wire, it looked very peculiar, so we immediately went to the C.P.R. Telegraph office to investigate. After looking through a sheaf of "wires received" the original telegram was found addressed to the "Daily Capital." The wire was received in Edmonton at midnight and by an error of the night operator, sent over to the Journal office. Though the sheet was plainly addressed to The Capital, the Sporting Editor of the Journal took possession of the same, wrote "Special to the Journal" on it, and ran it in this morning's paper.

This misleading or, rather, paper's private wires is recognized as the meanest form of rivalry possible and everybody knows the penalty for taking a wire that is addressed to some body else.

We do not object to having articles copied off our sporting page by the Journal, but we do object to having our private dispatches stolen.

An explanation is in order from the Journal, and we want it without any delay.

## CALLIES "A" AND "B" PRACTICE

Special practices will be held of the above teams on Wednesday of this week on the Exhibition grounds, at which all players are required to be present. Yesterday was the last date for signing players for the United Aids Shield Games. The secretaries of both teams will be there to receive the signatures of all present players and any intending players. Up to the present Callies have held their own in the football field, and on Friday night the "A" team intend to come out winners in the "A" division of the league, after this tie with St. George's will be played. The winners then will play off with the Callies, "B" (as champions of the "B" division) for the portage of the silverware for the coming year. Practice game has been arranged for Tuesday night on Second Street grounds between the Norwood and the Callies "B" team and should prove one of the most interesting games played this season.

ALL THE LEADING AND UP-TO-DATE DEALERS CARRY THESE CIGARS

## MERCHANTS WON FROM ALBERTA

Tom Rookes' Stalwarts Beaten by Johnstone Walker Co., Score Was 7 to 4

Tom Rookes says that the man who fell in the river and came up with his pockets full of fish and a nugget sticking to his shoe lacing, was unlucky compared with the Johnstone Walker baseball team. Last night a mighty struggle took place at Diamond Park before 37 unpaid admissions and after seven innings of dard-deal the Alberta Hotel was defeated by a score of 7 to 4.

The merchant princes had a joyful bating rally in the first and when the dust had settled four runs had scored. Johnstone Walker scored again in the second and third while the Alberta got three in the fourth in four. Two hits in the fifth were enough for Johnstone Walker to fast double by McElvhen and Penfold stopping any further scores.

The Alberta made a great try for victory in the seventh but were unfortunate in having two of the base-runners grabbed.

Phil Wolf and Cunningham pitched nice ball but their support was slightly ragged at times. The former fanned eleven while Cunningham got four strikes.

Tom Rookes and Thompson, the respective left-fielders, gave very fair impersonations of Babe Clynies, while Freddie Small, shortstop for Johnstone Walker, said he was Hans Wagner, but nobody believed him. Playin caught a nice game for the winners. The teams were:

Johnstone Walker Co.—H. Broch, 1b; Stewart, 2b; Small, ss.; Plavin, c; Brock, 3b; Thompson, 1b; Cunningham, p; Harwood, r.f.; Warren, c.f. Alberta Hotel—McNeil, g; O'Dwyer, r.f.; P. Rookes, c.; Penfold, 1b; T. Rookes, 1b; Hilliard, ss.; McDowell, c.f.; McEachern, 2b; Wolf, p.

Score by innings:

J. Walker Co. .... 41 000 0—4

Alberta Hotel ..... 000 000 1—7

## SKELLS LEAVES FOR DETROIT

Detroit, Mich., Aug. 2.—Rendered desperate by the late slump of Tiger pitchers, President Navin sent scouts in every direction with orders to bring young men into the camp for immediate work. Three curvies have been landed, just as the Tigers' veterans are resuming their true form. Earl Wilson of the Elgin, Ill., team reported a few days ago, and will be worked out as soon as Jennings gets home. Malachi Kitttridge is his son-in-law. Jimmy Casey has rounded up an Indian named Skeels of the Regina team in the Canadian North-west. He will be here in about a week. Londell of the Waco team is the third youth to sign. He will report at once. His fame is based on the recent twenty-three-innings 1 to 1 game with San Antonio, in which he went the full route.

## PITCH ON "LADIES' DAY" NO!

Barngrove, La Crosse Hurter, a Woman Refused to Twirl.

Release Follows

La Crosse, Wis., August 2.—Knowing that he was slated to pitch on "Ladies' Day," C. A. Barngrove, of Quincy, Ill., a pronounced woman hater, notified the management of the local club in the Minnesota-Wisconsin league to-night that he would not work on this day and received his release from Manager Stafford. Barngrove created unusual comment in the sport world a few months ago when he refused to sign terms unless it was stipulated that he would not be required to work on "ladies' day." His eccentricity keeps him out of fast company.

## SAM CRANE CLASSIFIES MAJOR LEAGUE PLAYERS

Considers Ty Cobb Best Ball Player Who Ever Wore Spikes—Mathewson is His Ideal Pitcher

ALL STAR TEAM

Johnny Evers, second base. Hal Chase, first base. Tris Speaker, centre field. Tris Cobb, right field. Zack Wheat, left field. Arthur Devlin, third base. Hans Wagner, short stop. Johnny Kling, catcher. Christy Mathewson, pitcher.

In Pearson's for August, Sam Crane

veten baseball player and writer, compares the men in the leagues and picks the players he considers best in each position. In part he says:

"If there is one department where the National is superior to the American League it is in the catchers. I can not see where the younger league has a catcher up to the class I consider Kling, Gibson and Bresnahan to have established. Stange, of Detroit, comes nearer the mark than any other.

"I rank the catchers as follows: Kling, Gibson, Bresnahan, Doolin, Stange, Stange, Thomas, Sweeney, Bergen, Carrigan, Meyers, Clark, Graham, Stephens, Payne, McLean.

"Comparing the pitchers I want to say that Christy Mathewson is not only the best pitcher, now, but the best pitcher ever produced.

"The pitching staff Connie Mack now has is the strongest in either league." In Bender, Combs, Dygert, and Morgan he has a formidable quartet of right handers, and in Plank and Krause two left-handers that cannot be excelled. Young and Joss are two of the real stars of the American league.

"I place the pitchers as follows: Mathewson, Bender, Plank, Combs, Druce, Ford, Vaughn, Joss, Mullen, Overall, Walsh, Moren, Adams, Donovan, Rucker, Moore.

"I rank the first basemen as follows: Chase, Konechey, Chance, Flynn, Davis, Hobbeltz, Bransfield.

## ALBERTA LOST CRICKET GAME

Though Team Did Excellently in First Innings, Winnipeg Overcame the Lead

Winnipeg, Aug. 2.—The first day of the big cricket tournament resulted in two wins for the local Eleven. The team representing Manitoba defeated Saskatchewan in a hard-hitting contest, Manitoba scored 125 in five innings, Saskatchewan 105. Going 14 again, 1; Manitoba started a swiftest and declared their innings closed at 171 for three wickets. Saskatchewan lost two wickets for nine runs when stumps were pulled.

Alberta vs. Winnipeg was of the hair-raising variety. Winnipeg victory was by six runs after an exciting finish. The Winnipeggers started disastrously being all dismissed for 20, Speck and Johnson, the Alberta bowlers, being invincible. Alberta scored 26 before being dismissed. In the second innings, Winnipeg made a great effort to avert defeat and rolled up 134 before retiring. The Albertans, however, made 81 in their last innings, six short of the aggregate. The feature was Johnston's (Alberta) 25 in the first innings, while Speck hit hard for a beautiful 34 not out in the second.

An enthusiastic meeting of cricketers attending the tournament was held in the city hall and it was decided to organize a Western Canada Cricket Association which will be the governing body for cricket in the three prairie provinces, the three lieutenant governors were elected patrons and the three premiers honorary president. Hon. T. M. Daly being elected president, vice president, Manitoba, T. A. Cooper; Saskatchewan, Judge T. C. Johnston; Alberta, Marland McCarty, M.P., Sec. A. R. Morrison, Winnipeg.

Coombs, of the Athletics, has a record of five victories in eleven playing days.

Umpire Wheeler says Saskatoon is sure baseball party. The Winnipeg Club was paid for 5,100 admissions the three games. And it costs the fans something to see a ball game up there. Twenty-five cents a way for bus ride, as the park is away out of town, and everybody who can get room sits in the grand stand, or they have to stand up as there are no bleachers yet. Neither is there a roof on the stand.—Regina Leader.

## HICKEY WON FROM HEINIE

Pitched phenomenal Ball at Brandon and Held Robins to no Runs and 3 Hits

Brandon, Aug. 2.—Hickey, the Eskimo son-law, made the Brandon Red Sox look like a school boy club from the rural district in last night's game. Hickey had the locals baffled throughout the combat. For four seasons he held them without a hit. And they got only three helpless sacrifices during the evening. Heinrich pitched for Brandon and the visitors got to him in the first three innings for five of their half dozen bingles and scored once in each inning, the game was featureless and uninteresting, save for brilliant fielding of Deacon White and a phenomenal catch of a high foul at the grandstand fence by Spencer.

## MORE ABOUT ZIM.

(Alberta)

It turned out just as everyone expected and Mr. Lethbridge Eckstrom has decided that Mr. Medicine Hat Zimmerman is the property of Lethbridge and Saskatoon hasn't a look-in on his services.

True, Zimmerman has been playing with Medicine Hat for the last two seasons and the Medicine Hat team has been transferred to Saskatoon, but Mr. Eckstrom has investigated and has discovered that Lethbridge has won out. Mr. Eckstrom has discovered that Lethbridge has won out before. It is a habit that Lethbridge has. This will be a very interesting introduction for Saskatoon in the league, but they had better get accustomed to it. Lethbridge has never had a distinctive name, but now that they have walked out and taken over everything in sight without even asking for it, and kept it by virtue of the decision of the president, it would be well to refer to them as the Highwaymen or the Pirates.

This new Vancouver pitcher, McQuerry, who came back with the leavers yesterday, is a big youth, but is only sixteen years old. He can not play in this league this season, but Manager Brown intends to hold him just the same.

St. Thomas' society note says: Charles Smith, that old-time favorite with local fans, held the indicator, and his have to stand up as there are no bleachers yet. Neither is there a roof on the stand.—Regina Leader.

## SACRIFICE HITS

Or Caught at the Plate, News Collected Around the Circuit

The Pich was too tough for Samuels last evening.

On one previous occasion the Capital remarked that Hickey had something on Heinrich. Last night's game proves the assertion.

The Regina Leader says that Calgary does not make as much noise as Edmonton, but it is more business-like.

What has happened to our loved President's staff of umpires? They seemed to do most of the work last night.

The Calgary Rough Riders must have travelled to Winnipeg over the Horse Shoe and Rabbit foot route. Outfit and out-fitted, yet they won.

Calgary papers figure it out that Manning is pretty near the leading pitcher in the league. Did they hear of a man named Phil Dellar?

When are the averages for June coming up and the official standing of the first half of the schedule? Wonder if they are lost like Zimmerman's contract?

Bill Carney, who ranks next to Andy Carnegie as a benefactor to mankind, passed the hat at Moose Jaw when they broke his ankle. The sum of \$102 was realized.

In the warming up practice, Wally Smith, the Calgary third baseman, was hit in the eye by a thrown ball and was forced to retire. He has more similar mishaps previously this season. Bill Carney, who is favoring a bad ankle, took the third base job—Regina Leader.

## HIGH RIVER MAN INVENTS AIRSHIP

Calls It An Aeromobile and Is Now Having the Machine Patented

IS APPROVED BY SCIENCE  
"Scientific American" Thinks It Will Make Good—Has Many New Features

High River, August 2.—A. F. Baden, a rising young scientist of this town, has invented and patented a new device in heavier than air machines, which it is expected will revolutionize the field of aviation far and wide. The invention has received the approval of the Scientific American, and is now being patented.

Mr. Baden had the opportunity last winter to visit the airship races at Los Angeles, and while there had the pleasure of one or two rides in a Curtiss bi-plane, and at the same time studied the different types of aeroplanes and dirigibles there. Since returning from the south, Mr. Baden has been quietly experimenting on an idea he conceived while there, and the result is a new and different type of airship from anything yet invented, but at the same time the nearest in shape, action and flight to a bird. Snap shots of a small model in flight were taken at the Times Office, and look very similar to a bird flying.

In making this machine, Mr. Baden has combined the ideas taken from the Zeppelin dirigible, the Wright bi-plane, the Curtiss bi-plane, the Blériot monoplane, and several others, together with several new ideas by the inventor himself, including a new and very ingenious yet simple steering apparatus, also the wheels on which the machine travels while on the ground can be raised up after the machine leaves the ground, thus offering the minimum of head to the wind. Mr. Baden's machine throughout is designed so as to offer the least possible head resistance, which is the main idea in a lighter than air machine, and which, it must be said, has been a great drawback to aviators so far.

Different from the present day machines which are mostly driven by gasoline motors, this new aeromobile, as it is named will be driven by Mr. Edison's latest invention, a storage battery electric motor, which it is claimed is far more powerful, lighter, and at the same time cheaper in that it can run for several months without re-charging, this in itself will save the necessity of stopping for a great saving from gasoline bills for gasoline every fifty miles or so in case of a lone trip.

Mr. Baden's model can be enlarged upon and made with any number of wings when used for commercial work but small models from a sparrow up will fly equally as well as a large machine of 25 feet from tip to tip, which latter size it is expected, will be able to carry two or four passengers without difficulty, and at which size it is hoped it will soon be come as popular both for business and pleasure as the automobile.

It may be added that this machine is designed to give the greatest amount of safety possible in that it is practically impossible for the machine to fall when the motor should happen to fail while in the air except at a slow glide. On water it is also unsinkable, and can in an emergency be propelled to land. On starting, the machine will leave the ground from the starting point instead of running a hundred feet or more to get up speed as most machines now made do.

Mr. Baden has already had two or three flattering offers for his patent from outside capital. Mr. Baden has experienced considerable difficulty in getting local people interested, no doubt from the reason that aviation is too much in its infancy to arouse interest outside of the scientific world.

### SPITTLE AS FRUIT POLISH.

New York, August 2.—Two Italian pushcart peddlers were polishing their fur at Chamber street and Broadway last night and Robert S. Gossier of 569 East 15th street saw one of the men, Stephen Di Luna, spit on some peaches. A few minutes later he sold one of them to a young girl. When she found out how the spit had been polished she threw the peach away. The Italian laughed at her.

Gossier and several other men called Diedana down pretty shavily. "Those are my peaches," he replied, "and I can do what I like with them." When a policeman was called the Italian lay flat in the street and refused to budge. He was dragged to his feet in short order, taken to the police station and later to night court. "I'll send you to the workhouse for five days," said Magistrate Barlow, "and in addition that it will cost you \$2 for not having a license."

## WILL HANDLE MORE THAN LAST YEAR.

"On the lines between Winnipeg and Edmonton, the Canadian Northern railway will handle equally as much, if not more, grain than they did last year," was the statement made to a reporter by George Stephens, general freight agent of the Canadian Northern—a statement significant in view of the crop failures that have been reported from so many localities in the west.

Last year the Canadian Northern handled 30 per cent of the grain that was shipped from the west to the head of the lakes. This year, according to Mr. Stephens, they will handle considerably more than 30 per cent, in spite of the crop failures that have been reported. Of what crops Mr. Stephens has seen in a journey over the Canadian Northern system between Winnipeg and Edmonton, he has nothing but the most optimistic report to make.

Mr. Stephens states that the general freight traffic on the C.N.R. this year has up to the present been the heaviest on record—Winnipeg Free Press.

## CAPT. ELLISON SHOT BY TROOPER

Victoria, B. C., Aug. 1.—Captain Peter Ellison, R.C.G., artillery, one of the most brilliant and popular officers in the British army, was shot while on duty in the field, and died of his wounds this morning. He was shot by a trooper of the 1st Canadian Trench Battalion, who was on duty in the field. Captain Ellison was shot while on duty in the field, and died of his wounds this morning.

Grant was arrested at noon by the provincial officers and delivered to the military authorities and will be tried by general court martial.

Grant had been punished for some slight breach of the regulations and, coming from the guard room, waited for his captain and shot him without warning.

Besides being prominent in military affairs, Ellison was one of the foremost fruit growers and horticulturists in the province. He leaves a wife and family.

### LOOKING OVER THE FIELD

With the purpose of looking over the field with the view of placing before the British investor the opportunities that Edmonton offers for profitable investment, Messrs. C. Keith Morris, investment editor, and A. S. Birchell, resident correspondent, of the Canadian Gazette, the oldest established Canadian newspaper in London, are at the King Edward Hotel. Both the visitors are delighted with the appearance of Edmonton and district and as a result of his visit, Mr. Morris announces that he proposes placing an Edmonton page in the Gazette and while here will try and make arrangements to obtain a sufficient supply of news matter.

### POSTAL CHANGES

Post offices established: Heatherwood, weekly from Wolf Creek; Huggett, weekly from Telfordville.

Money order offices established: Amisk, Fortinotch and Round Hill.

Frequency of Service Increased: Bruce, Chauvin, Edgerton Station and G. T. P. Ry. Station to 12 per week; Edmonton and G.T.P. Ry. station to 18 per week; Holden, Irma and G.T.P. Ry. station to 12 per week; Riboussac and G.T.P. Ry. station to 6 per week; Nylly, Telford, Viking and G.T.P. Ry. station to 12 per week; Wainwright and G.T.P. Ry. station to 14 per week; Wolf Creek and G.T.P. Ry. station to 4 per week; Lacalmette and Legal to 2 per week; Prague and Viking to 2 per week.

### DERRICK FELL AT TORONTO CONVENT

Toronto, August 1.—A gigantic thirty-five foot derrick dropped one night, a distance of fourteen feet, at the new wing of St. Joseph's Convent, on St. Alban's street, this morning, carrying down three men, along with several tons of stones and marble. None of the men were seriously injured.

### WATER COMMISSION FOR WINNIPEG

Winnipeg, August 2.—The board of control has decided to advertise for a water commissioner to take charge of the administration of that department, having the construction work only in the hands of the city engineer.

## WINNIPEG FIRM GOT CONTRACT

Will Start Work Soon on Substructure for High Level Bridge

Winnipeg, Aug. 1.—The contract for the high level bridge at Edmonton was awarded to John Gunn and Sons, Winnipeg, notification being issued this afternoon by Assistant Chief Engineer Schweizer, of the C.P.R. While no figures were given out, it is understood that it will cost in the vicinity of a million and a half dollars. The bridge will be completed in about twelve months.

The bridge will be 156 feet high, 2,800 feet long and will connect the provincial capital with the University city. Provision is being made for the railway and double street car tracks on the upper level, while nineteen feet lower will be an ample roadway for vehicular traffic and pedestrians.

While the Lethbridge bridge is bigger, the Edmonton structure with its varied traffic accommodation is unique in the west.

Messrs. John Gunn & Sons, who it will be remembered built the G. T. P. bridges over the Pembina, McLeod and Wolf Creek rivers, will start on the work immediately and within a few weeks both banks of the river will swarm with workmen commencing to dig the foundations. The engineers have everything in readiness for Gunn and Sons to begin at any moment they wish.

The substructure will be one of the biggest jobs that has yet been done in the west. The four centre piers will be 125 feet high with sixty feet of steel above them making the total height 185 feet.

### NEW STATION AS CASTOR

Castor, Aug. 2.—Work was commenced on the new C. P. R. station here on Friday and is being pushed rapidly. When completed Castor will have one of the tastiest and most convenient stations on the line.

## BEFORE BREAKFAST A GLASS OF MAGI THE WATER OF QUALITY

will work wonders to put you in condition for the day's work. It clears the "cobwebs" and heaviness away—leaves the brain clear to cope with your business problems.

MAGI Water possesses remarkable medicinal properties—though it has only the taste of the freshest, natural water and is not a medicine in any way except results. For rheumatism, gout, and other troubles arising from disordered stomach and kidneys, it possesses wonderful therapeutic value. MAGI Water is not merely a curative water—its wonderful purity, secured by extraordinary care in the bottling, fits it above all other beverages for table use.

MAGI Water may be bought from coast to coast, either plain or carbonated. It is sold in pints, quarts, half-gallons at cafes, hotels, bars, drugstores, on all railroad dining and cafe-cars or by your grocer by bottle or case. MAGI Water is bottled only at the Spring by

## YOUR BUSINESS PRINCIPLES

YOUR business principles may be right; your goods the best; your service to customers faultless. But the public has got to know.

Keep always your talking points before the public. Get in the glare of favorable publicity. Make known the merits of your proposition.

Success comes by focussing the diverting rays of public opinion—centering buyers' choice on what you have to offer.

Make your ability, your commodity, your service known. Throw on the light.

## You Risk Nothing

when buying

Because if you are not entirely satisfied with it your money will be promptly refunded by your grocer.

### CAVALIERI UNDER SURGEON'S KNIFE

Was Operated On in Paris To-Day—She Will Soon Be Convalescent

Paris, August 2.—Mme. Lina Cavallieri, the prima donna and wife of Robert Winthrop Chandler of New York, was operated upon for appendicitis at Dr. Segond's clinic.

The physicians report that the operation was highly successful and that Mme. Cavallieri will soon be convalescent. Her husband is in constant attendance upon her. Mrs. Chandler has suffered from chronic appendicitis for some time. A more acute attack such as the present one caused her to abandon her operatic engagements in Buenos Ayres and last May in St. Petersburg and to remain in her home on the Avenue de Messine here. That attack passed without the necessity of an operation.

### BOTH ACCEPT INVITATION.

Banquet to Hon. Geo. P. Graham and P. F. Pardee, M.P., and to E. M. McDonald.

The program of entertainment for the Laurier party during their visit in Edmonton Monday and Tuesday next, seems to have left Monday evening free for the two "old boys" receptions given to E. M. McDonald, M.P., by the Maritime Province boys, which will be held in the King Edward Hotel, and the joint Eastern Ontario, and Lambton Co. old boys to Messrs. Graham and Pardee in the Cecil Hotel.

Both gentlemen telegraphed their acceptance of the invitation tendered them and arrangements were concluded with the Cecil Hotel, whose new dining room will be used upon this occasion as its first large function.

Owing to the necessary work of preparation, tickets must be obtained this week, and only a limited number have been printed.

Owing to the great demand a few tickets will be sold to friends of the guests who may not be able to claim "old boy" friendship with the Minister and Chief Whip.

If present prospects continue it is probable that the function in honor of Mr. Graham especially will arouse considerable interest, above the common as the persistent rumors that Graham is to be the man to succeed Laurier has aroused a great interest among all classes to meet him.

The committee have laid particular stress upon two things in connection with the reception, first that it is to be entirely non-political, and that fall dress suits are not a necessity. The tickets are \$3.00.

### TRYING TO TERMINATE STRIKE

President Hays Says that All Possible is Being Done.

Toronto, August 2.—Claude MacDonnell, M.P. for South Toronto, wired C. M. Hays, general manager of the Grand Trunk, appealing to him to terminate the strike and received a reply assuring him that "everything possible will be done to bring about such results."

### DISCOVER SKELETON

Taher, Aug. 2.—A few days ago the skeleton of a man was discovered south of Chinle. It is supposed it is that of a negro who disappeared during the winter of 1908-9.

It takes a good cook to fix up anything to eat so a man can't tell what it is.

### THREE COMPANIES TO SUPPLY COAL

City Commissioners Award Contracts for City's Coal Yesterday

The city commissioners yesterday again discussed the tenders for the supply of coal to the city and finally decided to divide the contract among three of the tenderers. The Standard Coal Company and the Dawson and Ritchie Coal Company, who tendered jointly, will supply 10,000 tons; The Great Northern Coal Company will supply 5,000 tons; and the Cardiff Coal Company will supply 10,000 tons.

In regard to the applications of several outlying villages to be supplied with electric light and of West Edmonton for an extension of the water service, Solicitor Brown advised the city to obtain legislation from the provincial government which would safeguard their interests.

The proprietors of the Victoria Hotel will be permitted to make certain alterations to the building, subject to the consent of the council, on condition that the hotel is moved in side of two years.

City Solicitor Brown was authorized to come to a settlement with Mr. Barlow who was injured some time ago while riding in a street car.

### GASOLINE KILLS WOMAN AND GIRL

Were Cleaning Gloves in Closed Room When Explosion Occurred

Newark, Ohio, August 2.—A gasoline explosion resulted from cleaning gloves in a closed room, last night caused the death of Mrs. Gerie Fuller, the wife of a photographer, Miss Gerie Anderson, 20 years old, a young society girl, who is lying at point of death in the hospital, burned beyond recognition.

### SUCH IS FAME

Viator—Much obliged. Knew Paddy N. in Calgary a few years ago. A great nut. Suppose you are in the Mount Stewart rush—From London "Winning Post."

### VISCOUNT DILL COMING

London, Aug. 2.—Viscount Dill has sailed for Canada and in conjunction with Lord Strathcona intends to get Canadians interested in the proposed Imperial Exhibition in 1915.

### CANADIAN SONS OF ENGLAND

London, Aug. 2.—Five hundred Sons of England from Canada inspected the House of Commons today. The members of Parliament were genuinely interested in them.

### TUG BEN'S SUNK IN LAKE ERIE

Windsor, Ont., August 1.—As the result of a storm on Lake Erie last night the tug Ben, owned at Sora, Mich., by Edwards Bros., sank off Point Pelee this morning at 2 a.m. All the crew are safe at Point Pelee.

### FOUNDATIONS COLLAPSED

Part of New Wing of Ontario Parliament Buildings Caved In

Toronto, Aug. 2.—Part of the foundations for the new wing of the Parliament buildings collapsed when the contractors commenced to fill in behind them with earth. The foundations are of concrete and it was feared that the material did not have a chance to set properly. A section twenty-three feet long fell inwards.

### CAN SHOCK WHITEN HAIR?

Scientists Pick the Bubble of Popular Belief.

Prof. Stieda, of Koenigsberg, Germany has upset another popular belief by declaring that a sudden shock or fright cannot turn hair white. He says that all the supposed cases of sudden blanching of the hair are either instances of deception or of incorrect observation. Prof. Stieda gives several instances in point, among them the historical example of Marie Antoinette, whose hair is said to have turned grey the night before her execution, the fact being that she had been grey-haired for some time previously. He also mentions the case of a medical practitioner with dark hair in Berlin who went into a hospital to undergo an operation. On leaving he was much commiserated by many people owing to the fact that his hair was snow white. The truth, however, was that he was not able to dye his hair as he had previously done daily.

Yes, quite right; quite right; a janitor is a vacuum cleaner.

PRICE REDUCTIONS in all departments this week

## HUDSON'S BAY CO.

The Great Traders of the Great West

Come to the REMNANT SALE Thursday

## Every Economical Woman Should Attend Our Great White Sale

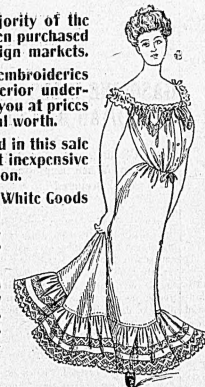

As intimated last Friday, the majority of the White Goods in this sale has recently been purchased at great advantage in Eastern and Foreign markets.

Finest quality fabrics, laces and embroideries are employed in the making of the superior under-muslins which we are now offering to you at prices that are a very small part of their actual worth.

Every garment and fabric concerned in this sale is fresh and spotless and even the most inexpensive kinds bear the imprint of careful selection.

If you were to call and inspect the White Goods showing in the departments we feel sure of your approval of the styles, qualities and prices of the various lines presented.

The window showing, although worthy of note, depicts only a very few of the great many lines offered in this sale and likewise the following list is but an index to the many more important offerings.

**About Town**  
The regular monthly meeting of the Children's Aid Society of Edmonton and Strathcona will be held in the Y.M.C.A. on Wednesday at 4.30 p.m.  
An invitation has been extended to Premier Sifton to attend the meeting at Red Deer on August 11th, at which Sir Wilfrid Laurier is to be the principal speaker. Hon. Mr. Sifton will likely accept the invitation.  
Every pupil who wrote on the Standard V. or high school entrance at the Alexander Taylor School was successful in passing for the second year in succession, establishing something of a record for so large a school.

Mrs. John A. McDougall has presented to the band of the first Fusiliers, fourteen of the latest English popular selections which will be a valuable addition to its repertoire. Three of these pieces will be included in the programme at the concert at College avenue tonight. The band passed a resolution at a meeting held yesterday evening expressing their appreciation of the gift.  
The 102nd Regimental Band will give a concert on the band stand, College avenue, at eight o'clock this evening. The programme will be as follows: March, "Soldiers of the Queen," waltz, "My Darling," euphonium solo, "Love's Ransom," by J. B. Daly; gavotte, "Comet," march, "My Soldiers," waltz, "Reve d'Orient," grand selection, "Gems of Stephen Foster," part song, "Good-night, Beloved," God Save the King.

The through street car service to and from Strathcona will be discontinued from today for some time. The service will begin and end at the corner of Ninth and Jasper, leaving at every ten minutes to and ten minutes past the hour and at the half hour. The Syndicate avenue cars instead of going to Sixteenth street will turn up First street. These alterations have been found necessary on account of the paving being put in between the tracks and the necessity for operating the service on one track for long distances.

**WORE STEEL PLATES**  
Bozeman, Mont. Aug. 2.—A man arrested here yesterday was found to have steel plates fitted over his skin for protection and was also a walking arsenal, having two revolvers and several knives. He refuses to give an explanation.  
**FIRST WHEAT DELIVERY**  
Winnipeg, Aug. 2.—A sample of the first delivery of wheat from the 1930 crop in Manitoba has been received. It was marketed at Roseville on Saturday and graded No. 1 Northern and sold at \$1.01 per bushel. This is believed to be a record date for delivery of new spring wheat in Western Canada.  
Flowers, like men, look anything but attractive when they go to seed.

**TO-DAY'S WHEAT PRICES.**  
Winnipeg, August 2.—Wheat; prices on the exchange to-day as follows: Cash—No. 1 Northern, 1930; No. 2 Northern, 1930; No. 3 Northern, 1930; Futures—October, 1930; 1931; December, 1930; 1931.  
Oats: 37 1/2.  
Flax: 210.

**Personal**

Miss Alice Welch is spending her holidays with Miss Letta Heyendahl at Gaskar. Miss Welch is a sister of O. S. Welch of the Castor Realty Co., Camrose Canadian.  
J. N. Ponterlau of the Rielien Edmonton, is building a large hotel in Melville, Saskatchewan, to be known as the Windsor.  
Mrs. Dickey, widow of the Hon. H. R. Dickey, Minister of Justice in the last Dominion Cabinet, is visiting her daughter, Miss Constance Dickey, at the High River Hotel.  
W. A. Parker, local manager of the Traders Bank, is taking a four-week vacation at the Pacific Coast. In his absence the bank is in charge of Mr. Wilson of the Edmonton branch—Camrose Canadian.  
Mrs. Goldsmith of Edmonton, who has been in the home of Mr. and Mrs. Martin for several days, returned home on Monday. She was accompanied by Mrs. Martin, who will spend the week at the Capital—Westminster Times.  
Mr. C. Koemann, since several years editor of the Alberta Herald, the German newspaper, has withdrawn from his position. Mr. H. Becker, a well-known German journalist, has filled his place, while Mr. W. Krakenhagen is business manager of the company.

News reached the city yesterday of the death occurring at Cleveland on July 11th of John A. Burkholder, who was at one time a resident of Edmonton and well known among the business fraternity of this city. Mr. Burkholder came to Edmonton to reside in the summer of 1903 and left here to reside in Hamlet in 1906.

Miss Hammond of Edmonton is spending a few days with her aunt, Mrs. Atkins—Millet Packet.  
Percy Blythe, official auditor of Edmonton, spent several days in High River this week and saw the town books. He found the assessment roll and other documents kept in a faultless manner and congratulated the council on the accuracy of the town accounts—High River Times.

News has been received from Doctor Blais, at the present time in Rochester, Minn., with Mrs. Blais, that they the C.T.P. and C.N.R. lines, and a very successful operation in the Mayo both had a very pleasant trip over Brothers Institute, Rochester, Doctor Blais writes that the celebrated American institution is established on the polytechnic system as the Paris Hospital of Paris. Doctor and Mrs. Blais expect to return to Edmonton about the 15th of August.

**COMMITTED FOR TRIAL**

**Charles Halter Accused of Obtaining Money by False Pretences**  
Charles Halter was committed for trial in the police court this morning for obtaining \$75 from Belle Moore, under false pretences. Moore charged that Halter had obtained the money by getting a diamond ring valued at \$650 from Frank Studebaker will be heard this afternoon. Two drunks were assessed \$4 and \$5 costs or ten days.

The congregation of the First Presbyterian Church held a meeting last night at which they accepted the plans for the new church. The plans have been prepared by Wm. Reid and Herald of Edmonton and Strathcona and were presented to the meeting last night and were accepted without hesitation.

**The Day in Strathcona**

The Strathcona Board of Trade has just issued a little booklet for the purpose of advertising Strathcona and district. The book deals with Strathcona as the railway industrial and agricultural centre of the province, and giving a list of statistics comparing 1909 and 1910. The book is profusely illustrated and is intended for circulation amongst prospective settlers in Eastern Canada and the States.

The Rev. J. C. Bowen, pastor of the Strathcona Baptist church, has returned after a three months' tour of the principal cities of Eastern Canada. He says that the work on which he was engaged while on his three months' tour promises to result in substantial contributions from prominent men of the east to the educational work of his church in the Prairie provinces. Mr. Bowen went east for the purpose of conducting a campaign to raise \$25,000 to aid the work of the Baptist church, which has been in operation at Brandon during the past eleven years.

The school board and the executors of the Irwin Estate have entered an agreement whereby some property between Seventh and Eighth streets north and Sixth and Seventh streets east becomes the property of the school board. Whether a school building will be erected on this property or not, depends on the increase in population in the district. The construction of a school building costing between \$12,000 and \$15,000 situated east of Mill Creek is going ahead and also the construction of a smaller school building on the flats near the present interurban bridge. The school board are looking for a school site in Waterdale, and next year's school construction of a building in that district large enough to accommodate the scholars there who are now attending the up-town schools.

The matter of commencing work on the Mill Creek bridge will be discussed at the city council meeting this evening. Whether day labor under the city engineer or tenders will be called has yet to be decided. The contract for the superstructure is let to the Dixon Bridge Co. and calls for the delivering of the steel within five months of date of contract.  
According to Aid. Bush the substructure will only take one month so it is probable that the bridge will be finished this week and the agreement with the residents of the district east of Mill Creek whereby a portion of the cost of the structure will be paid by them has not yet been closed, but it is expected that a satisfactory arrangement whereby the payments to the city will be made, will be reached in the near future. The residents of the district have agreed to pay \$560 annually to the city throughout the term of the \$8,000 bridge. As the district from which this sum will be collected in the shape of taxes is about 600 acres in extent, this will mean an annual tax of about 65 cents per acre. According to the proposed agreement this money can be used for no other purpose than to defray the cost of the construction of the Mill Creek bridge.

**JACKSON HANBY HAS**

(Continued from page one.)  
"It is to be very much regretted that many enthusiastic horticulturalists who do not trouble to enter the competition as we saw a number of garden and lawn pretensions. More certainly have figured in the list of prize winners had entry been made.

Crispy, 439 Ottawa avenue, first; Mrs. Davis, 209 Ottawa avenue, second. Professional, vegetables, W. Raich, Delton, Silver Medal. Southeast district—Amateur, flowers, C. Dredger, Ottawa Avenue S. first; H. H. Soper, second. Vegetables, F. Callimore, first; T. Soper, second. All of which is respectfully submitted.  
(Signed) JOHN BAXTER, JOSEPH SLADE, Judges.

**MAN DISAPPEARS FOR SECOND TIME**

Robert Whitelaw Left Home Last Friday Night—Not Seen Since

Robert Whitelaw, a man who resides with his family in a ten on Twenty-first street, is missing from his home and the police are working on a clue which they expect will be the means of discovering his whereabouts.  
This is the second time that Whitelaw has disappeared and the last time he was located without much trouble. The missing man's wife states that he left his home last Friday evening to go down town to pay his tent license. He had only \$5 with him and he told her he would return immediately. That was the last she saw of him. The police clerk states that a man answering Whitelaw's description came into the station on Friday night and asked for directions as to the place where he should pay his license and was informed. According to information Whitelaw paid his license as he intended. There is no fear of foul play and the police believe that he has gone off on a little trip to some point on the C.N.R.  
The missing man is about five feet five inches in height, and weighs 140 pounds. He is of a dark complexion. On the night of his disappearance he wore grey trousers and vest with a dark coat. He is only 26 years of age.

**CANUCK GERMAN SWEAR LOYALTY**

Prepared to Do Anything to Defend New Home and Country

**OFFER SONS FOR NAVY**  
Premier Laurier Replies in Most Stirring Address of His Tour

Regina, Sask., Aug. 2.—An almost unparalleled demonstration of loyalty occurred here last night when the Germans of the city declared to Sir Wilfrid Laurier they would be prepared to do anything to defend their new homes and country.

In a loyal address, they said: "We hope the time will come when the young men of our race will be able to make the Canadian navy an important part in the defence of this country."  
In reply to this remarkable demonstration Sir Wilfrid made a most stirring speech of his tour. Declaring Canada to be the bright jewel in the crown of British empire, he prophesied it would become the largest and wealthiest portion of the Empire, declaring that the Empire rests on liberty, equality and justice. He declared this freedom and local autonomy would prevent the Empire sinking into the oblivion which engulfed the Roman and Napoleonic Empires. After a reference to the late war and the present federation of South Africa, the Premier said Canada has gained independence in allegiance and while independent as a nation we do not seek separation. We are all subjects of the King and we will have no other sovereign.  
The Premier then expressed his incredulity as regards a possible competition between Britain and Germany but should it come, he would ask German citizens here to act as mediators.

**CALGARY STOPS FIGHT PICTURES**

Prohibits Exhibition of Any Kind of "Encounter of Fists" Between Men

(Special for The Capital.)  
Calgary, August 2.—The City Council learned from acting solicitor Muir last night that they had the power to prohibit the prize fight exhibition by the city charter, and he prepared an amendment to the clause regulating fights which positively forbids anything in the nature of prize fights between men being seen either still or moving pictures in Calgary.  
It was drastic, declaring that "no person shall exhibit for hire or profit in any hall, theatre or public place any picture, moving picture or representation of a prize fight or of any encounter of fists between two or more men in the city of Calgary."

**THREE MILLIONS IN CALGARY HOMES**

Nearly That Amount Spent in Building Since First of Year

(Special to The Capital.)  
Calgary, Aug. 2.—That the scarcity of dwelling houses in Calgary will be relieved shortly is to be gathered from the record of permits issued by Building Inspector Harrison during the month of July.

Statistics for that month are 133 permits representing an expenditure of \$500,000 and it is well recognized that building must be started within a month after the issuance of the permit.  
The present year has been an extremely good one for building judging from the permits issued. The permits for this year so far represent \$2,012,200. April was the most flourishing month with \$603,000.

**GRAIN GROWERS MEET LAURIER**

Ask for Tariff Reduction—"It Will Come Gradually," Says Premier

Regina, Sask., Aug. 1.—The Premier met a delegation of grain growers here, who emphasized their views on the tariff question.  
The grain growers' spokesmen admitted that they were not all free traders in the West, but declared their great and growing feeling favoring an all-round reduction in tariff.  
We want our tariff to be more for revenue and less for protection. And if all the representatives of the people had done their duty, the Premier would have been aware of this before," was the substance of the grain growers' arguments.  
Laurier Reply  
Laurier said: "I am glad you recognize that it is impossible at one fell swoop to dispose of the tariff. Changes must be gradual."  
The Premier then pointed out that abolishing the tariff at once would probably cause a financial crisis and said that the strongest free trader must recognize that it was not possible to have free trade as in England.  
It is impossible for us to raise revenue by direct taxation. If we did, the first to suffer would be the settler, and the first goal set before us is the settlement of these enormous prairies.  
Sir Wilfrid favored a gradual reduction of the tariff and also advocated reciprocity with the States, if fair treatment was offered to Canada.

**BULL AND MOTOR FOUGHT BATTLE**

Bull Was Killed and the Auto's Engine Smashed to Bits

Fort Plain, N. Y., Aug. 2.—James E. Wendall of Albany, for many years connected with the State Comptroller's office and now a special deputy comptroller, is spending his vacation here, his former home and still his voting residence, and this afternoon met with a thrilling adventure.  
He is an enthusiastic autoist and this afternoon, accompanied by former Sheriff Hare of Amsterdam, Postmaster James A. Snell of Fonda, and an ugly bull came out in the highway. He was driving his automobile from Little Falls back to Fort Plain.  
A few miles west of here the party noticed in the highway what they supposed was a peace loving cow, and that the animal would get out of the way was taken for granted, consequently high speed with vigorous honking was maintained. When too close upon the animal to avoid a collision the cow was discovered to be an ugly bull charged in the highway for a fight and a fight there was. Car and bull met head on with a crash that killed the animal, breaking its neck and wrecking the auto's engine; and the end is not yet, as the bull was a valuable one and his owner, who was soon on the scene, threatens to bring suit against the party for damages.
